Ahmed Hassan Mohamed Hassan El-Naggar

Software Engineer | Front-End Developer

ahmedhassan1907ua@gmail.com +201016191608 Cairo , Egypt linkedin.com/Ahmed_Hassan
github.com/Ahmed7assan1 codeforces.com/Abo_7assan behance.net/ahmedhassan498

PROFILE

Results-driven Software Engineer and Computer Science graduate with a strong foundation in Algorithms and Competitive Programming (ECPC National Rank #55). Specialized in building responsive and user-centric web applications using React.js, TypeScript, JavaScript, and Vue.js. Experienced in UI/UX design, state management, REST APIs, AI-powered solutions, and workflow automation. Strong focus on clean, maintainable code, debugging, software testing, and high-performance interfaces.

EDUCATION

Bachelor's in Computer Science 09/2021 – 07/2025
Shorouk Academy, Egypt Cairo, Egypt
Grade : Very Good

PROJECTS

FurniVision — AI-Powered Interior Design Platform
Built a responsive AI-powered web application for real-time 3D room visualization and furniture customization using Vue.js, TypeScript, and Three.js. Integrated Flowise for AI design recommendations, n8n for workflow automation, and image processing with perceptual hashing for similarity detection and visual analysis.
Technologies: Nuxt.js, Vue.js, Three.js, TypeScript, TresJS, Tailwind CSS, Flowise, n8n, Supabase, Sharp, Perceptual Hashing, Paymob, Vite PWA, Workbox, Nuxt i18n

Mohameek - Legal Services Platform
Developed a full-featured legal services platform using React.js, enabling consultation booking, lawyer delegation, client reviews, WebRTC video consultations, and an AI-powered legal assistant powered by Flowise. Implemented role-based access for lawyers and clients.
Technologies: React.js, WebRTC, Flowise, REST APIs, Redux Toolkit

Coffee Shop Management System
Developed a Vue.js-based management system for product handling, order tracking, inventory monitoring, and sales operations through a responsive dashboard interface.
Technologies: Vue.js, JavaScript, Tailwind CSS, Pinia (State Management)

ACADEMIC PROJECTS

Hotel Booking System
Desktop application for managing hotel reservations with real-time database updates and booking management.
Technologies: C#, SQL Server

Store Management System
Developed a desktop inventory management system with a graphical user interface and integrated MySQL database for product tracking and sales operations.
Technologies: Java, Swing, MySQL

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer
- Developed responsive web pages and user interfaces based on client requirements.
- Collaborated with clients to understand needs and deliver functional, user-friendly solutions.
- Improved problem-solving skills, adaptability, and independent task management.
- Maintained documentation and ensured quality across delivered work.

Remote AI Operations & Prompt Engineering — Outlier
- Improved AI model responses through prompt engineering and evaluation
- Analyzed outputs to identify reasoning errors and edge cases
- Enhanced response accuracy, consistency, and instruction-following
- Contributed to improving model performance and usability

Graphic Designer & UI/Visual Design Support — First Markets
- Designed visual assets and UI elements based on client and business requirements.
- Applied UI/UX principles to create consistent, user-friendly digital experiences.
- Collaborated with development and marketing teams to deliver client-focused digital solutions.

PROFESSIONAL PROGRAMS

Information Technology Institute (ITI) 01/2026 – 06/2026
UI/UX Development Track
- Selected for a competitive 6-month intensive training program.
- Focused on UI/UX design, front-end development, software testing, debugging, and project-based learning.
- Developed teamwork, problem-solving, and professional workflow skills.

Digital Egypt Pioneers Program 04/2024 – 10/2024
Front-End Development Training
- Completed an intensive software development program.
- Built multiple projects using modern web technologies.
- Applied best practices in UI/UX, responsive design, and version control.

SKILLS

Technical Skills
- **Languages:** JavaScript (ES6+), TypeScript, C++, Python, Java, C#, HTML5, CSS3 (Sass).
- **Front-End Development:** React.js, Vue.js, Angular, TypeScript, Redux Toolkit, Pinia, Tailwind CSS, Bootstrap, Responsive Design
- **Tools & Technologies:** Git/GitHub, RESTful APIs, WebRTC, Flowise, n8n, AI Workflow Automation, Prompt Engineering, LLM Integration.
- **Testing & Quality:** Software Testing, Unit Testing, Test Cases, Debugging, Troubleshooting
- **UI/UX & Design:** Figma, Adobe Photoshop, Adobe Illustrator, Design Thinking.
- **Problem Solving:** Advanced Data Structures & Algorithms (Competitive Programming background).

CERTIFICATIONS & ACHIEVEMENTS

Information Technology Institute (ITI) – UI/UX Development Track 01/2026 – 06/2026
Ministry of Communications and Information Technology (*MCIT*), *Egypt*
Completed intensive training in UI/UX Design and Front-End DevelopmentBuilt real-world projects using modern design principles and collaborative workflows

Digital Egypt Pioneers Program - Software Development 04/2024 – 10/2024
Ministry of Communications and Information Technology (*MCIT*), *Egypt*
Completed intensive training in Angular, TypeScript, and front-end development
Built real-world projects using component-based architecture and responsive design

Digital Egypt Pioneers Program - Business English
MCIT Egypt | *Berlitz*
Focused on technical communication, presentation, and professional English

GEN AI FOR EDUCATION HACKATHON 2026 – Technical Enablement Week
MCIT, Egypt | *Egypt University of Informatics – Innovation Center*
Completed the Technical Enablement Week workshop series focused on Generative AI and its applications in education.

IBM SkillsBuild – Cloud Computing
Covered cloud service models (IaaS, PaaS, SaaS), deployment models, cloud APIs, and troubleshooting techniques for cloud environments.

ICPC ECPC Qualifications (2023)
Organized by: International Collegiate Programming Contest
Ranked #55 nationally in the Egyptian Collegiate Programming Contest

HP LIFE - Design Thinking
Gained skills in user-centric problem solving and creative solution design

Secure Software Development Lifecycle (SSDLC)
Understanding of secure coding practices and software development lifecycle principles

TypeScript Fundamentals
TypeScript basics, type annotations, interfaces, classes, functions, and integration with JavaScript projects.

ACTIVITIES

Participated in the ECPC competition to enhance problem-solving skills and algorithmic thinking.

LANGUAGES

Arabic
Native

English
Very Good (Reading, Writing, Speaking)
